

Bando della Ricerca Finalizzata 2021												
TITOLO PROBETTO	CODICE PROGETTO	CUP	MICLO	TIPOLOGIA PROGETTUALE	RESPONSABILE SCIENTIFICO	IMPORTO TOTALE	QUOTA INCCS	DATA MEZIO	DATA FINE	PARTNER	TEMATICA PRINCIPALE	ABSTRACT
Targeting the motor cortex in Parkinson's disease by gamma- transcranial alternating current stimulation; pathophysiological and therapeutic implications	68-3021-12372323	F13C22001R10001	Capolila	Progetti odinari presentati da giovani ricercatori (GR): Theory- enhancing	diulia Paparalia	370,000,00 €	250,000,00 €	29/04/2022	28/04/2027	Fondacione Policinico Campus Bio, Abstiro BCCS Fondacione Santa Lucia	Neurologia & Prichistria	social state great games southfairs are sprintingsby school for historical data (Polician), data and (Polician) data (Polician
Role of perineuronal nets in molecular and cellular mechanisms underlying nociceptive sensitization in mouse models of neuropathic palm.	68-3021-12272496	F49C22000410001	Capolila	Progetti ordinari presentati da giosani ricercatori (GR): Theory- enhancing	Cloda Mescio	299,000,00 €	256,000,00 €	29/04/2022	28/04/2026	Università degli Studi della Campania "L' Vanvinelli"	Neurologia & Psichlatria	Change pairs a section of by a milliagation from it of incomed plantify securing on all ordinary of the pairs assess. Former of change pairs and section of the control plantifies are the pairs of the control plantifies and pairs of the control plantifies are the control plantifies and pairs of the control plantifies are the control plantifies and pairs are the control plantifies and pairs are controlled plantifies and pairs are controlled plantifies and plantifies and pairs are controlled plantifies. The control plantifies are controlled plantifies and pairs are controlled plantifies. The control plantifies are controlled plantifies and pairs are controlled plantifies. The controlled plantifies are controlled plantifies and pairs are controlled plantifies.
Targeting the gut dysbiooks to treat inflammation-driven synaptopachy in multiple scienceix	GR-3021-12373337	F28:C22001090001	Cupellla	Progesti ordinari presentati da giosani ricercatari (GR): Thory- enhancing	Francesca Da Vito	450.000,00 €	200.000,00 €	29/04/2022	28/84/2026	IRCCS San Raffaele di Roma RCCS Fondazione Santa Lucia	Neurologia E Pulchizetia	Antoniore in seguingiales i a primitivo propriego primiti i sobile indicato del sindicato del missorio del composito del composi
The possible role of MSTI in the development of vacular disease	85-3021-12275356	F13C22001800001	Capolila	Progetti ordinari di ricerca finalizzata (FF): Theory- enhancing	Sabastiano Scierretta	450.000,00 €	284.452,40 €	29/04/2022	28/04/2026	Liniwenità degli Studi di Roma "La Sapienza"	Cardiologia-Preumologia	Same and improvement are consisted with reconstructions and information formation. These continues greaters in the continues and antidesticution, which is the lost and improved mark being to the self-ingered and improved and
Exploring the role of inflammaging in age-visited psychiatric conditions: building bridges among sustition, inflammagones, cognitive and mood decline	GR-3021-12375341	F28C22001560001	Capolita	Progetti ordinari presentati da giovani ricercatori (60); Theory- enhancing	Alessandro Gidfielai	450.000,00 €	450,000,00 €	29/04/2022	28/04/2026		Gerlatria	Amounting to come agree and the contraction of the
